GYANAM VADATI

Short Description

Gyanam Vadati will be a event,which requires proper knowledge and presentation skills of the participants.

It is based on **NIVISTA**(Integration of many things on a common platform), which is among one of the pillars of **NETRA**.

Introduction to the event:

Participants need to come in a pair(2 persons)

Event will be conducted in 4 rounds :-

1. Think! As Much As Youn Can

Participants will be given a certain Alphabet, on which they have to think and jot down the number of technology,tools or programming languages they have come across within a stipulated period of time.

The pair writing maximum number of valid answers will proceed to the next round.

2. Code Snippets.

Participants need to complete or debug a certain code according to the given desired output.

The pair writing debugging or completing maximum number of code will proceed to the next round.

3. Quiz Round

Questions will be from Basics of Computing, C Programming and recent technology.

The pairs answering the maximum questions will proceed to the next round.

4. Face Off

Only last 2 pairs will be allowed for this round.

Pairs will be given a technical topic ,on which they have to present their views, the most satisfying presentation will be declared as the Winner.

Registration process:-
